

HW1: Comparing search engines (Google vs another)

Summary: In this homework, you will compare search results for 100 queries, using Google, and a non-Google engine (Ask Jeeves, Bing, DuckDuckGo, or Yahoo).

Description

Here are the details.

Here are the queries and Google results that are described in the HW1.pdf linked above [you'll only need to use just ONE of the four pairs below - based on the last 2 digits of your student ID [ranges 01-25, 26-50, 51-75, 76-99]]:

- 100QueriesSet1, and Google_Result1
- 100QueriesSet2, and Google_Result2
- 100QueriesSet3, and Google_Result3
- 100QueriesSet4, and Google_Result4

Getting help

There is a HW1 'forum' on Piazza, for you to post questions/answers. You can also meet w/ the TAs, CPs, or me.

Good luck, HAVE FUN!
